DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-7, drawn to a method of assigning signals in NMR spectrum of a protein.

Group II, claim(s) 8, drawn to a method of identifying 3D structure of a protein based on assigned signals in NMR spectrum of the protein.

Group III, claim(s) 9, drawn to a method of identifying the binding site of a protein to a ligand based on assigned NMR spectrum of the protein.

Group IV, claim(s) 10 and 11, drawn to a reagent kit comprising labeled amino acids.

The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I-III have the common method of assigning signals in NMR spectra of protein with specifically labeled amino acids and Group IV is directed toward the labeled amino acids. This technical feature is known in the art and disclosed in US 6,111,066 by Anderson et al.

2. A telephone call was made to William R. Schmidt, II on 03/26/10 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yelena G. Gakh, Ph.D. whose telephone number is (571) 272-1257. The examiner can normally be reached on 9:30 am - 6:00 pm.
